## Biweekly News Update

Welcome to the inaugural issue of *In The News*, a biweekly news update hosted by the Partnership for a Drug-Free New Jersey's Drug Don't Work in NJ initiative. The Partnership for a Drug-Free New Jersey has created *In The News* in response to the rapid changes that are impacting drug-free workplace policy and procedures. We will be distributing *In The News* the 1st and 3rd Tuesday of the month in addition to the Drugs Don't Work in NJ quarterly updates. We encourage you to share this complimentary biweekly news update with your colleagues and business associates to stay informed on the issues regarding establishing and maintaining a drug-free workplace. A sign-up link can be found at the bottom of this issue for anyone interested in becoming a new member of Drugs Don't Work in NJ and to directly receive these free updates.
